X2 Comm, Inc. d/b/a Direct Connect Communications

Statement of CPNI Procedures and Compliance

X2 Comm, Inc. d/b/a DC Communications ("X2 Comm" or "the Company") does not use or permit access to CPNI to market any telecommunications or non-telecommunications services. X2 Comm has trained its personnel not to use CPNI for marketing purposes. Should X2 Comm elect to use CPNI in future marketing efforts, it will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

X2 Comm has put into place processes to safeguard its customers' CPNI from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI. The Company maintains all CPNI in a secure server environment with limited access. The Company trains its employees regarding the requirements to safeguard CPNI against unauthorized disclosure and has a disciplinary process in place.

X2 Comm maintains a record of all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI.

X2 Comm does not disclose CPNI over the telephone in response to a customer-initiated telephone inquiry, unless the customer can provide the call detail information that is the subject of the inquiry without the assistance of a customer service representative. If it elects to do so in the future, it will follow the applicable rules set forth in 47 CFR Subpart U, including the implementation of authentication procedures that do not require the use of readily available biographical information or account information and customer notification of account changes.

If a customer's account information is changed, the Company immediately notifies the customer of the change via e-mail to the e-mail address of record, without revealing the changed information.

The Company does not disclose CPNI on-line. If it elects to do so in the future, it will follow the applicable rules set forth in 47 CFR Subpart U, including the implementation of authentication procedures that do not require the use of readily available biographical information or account information and customer notification of account changes.

X2 Comm does not have any retail locations and therefore does not disclose CPNI in-store.

The Company has in place procedures to notify law enforcement in the event of a breach of customers' CPNI and to ensure that customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law

enforcement. X2 Comm maintains records of all breaches discovered and notifications made to the USSS and the FBI, and to customers.

X2 Comm has not taken any actions against data brokers in the last year.

X2 Comm did not receive any customer complaints about the unauthorized release of CPNI or the unauthorized disclosure of CPNI in calendar year 2008.

Company has not developed any information with respect to the processes pretexters are using to attempt to access CPNI. If the Company suspects that a pre-texter may be attempting to gain access to CPNI, it will immediately ask the requester to provide information that only the customer would be able to provide and would further investigate suspected pre-texting activity.
